SUMMARY

Detail-oriented Python Developer and AI/ML enthusiast with a strong foundation in computer applications. Skilled in Python, Flask, HTML, CSS, JavaScript, Machine Learning, SQLite, and MySQL. Built and deployed an AI-powered Real Estate Price Prediction web application and eager to contribute technical skills while continuing to learn and grow.

TECHNICAL SKILLS

Languages:	Python , JavaScript ,C , C++ ,Java (Basic)
Web Development:	HTML5, CSS3 ,Flask ,
AI / ML:	Machine Learning ,Scikit-learn, Data Analysis ,Prediction Modelling
Databases:	SQLite ,MySQL
Tools & Version Control:	Git , GitHub , VS Code
Concepts:	Data Structures & Algorithms · OOP · Problem Solving

PROJECTS

AI Real Estate Price Prediction | Python, Flask, ML, HTML, CSS

- Built a machine learning model to predict house prices using features like location, area, and BHK.
- Developed a Flask-based web interface allowing users to input property details and get real-time predictions.

EDUCATION

Master of Computer Applications (MCA) | Pimpri Chinchwad University, Pune Aug 2025 – Aug 2027 (Expected)

Current CGPA: 8.64

Bachelor of Computer Applications (BCA) | Sahyog College of IT and Management June 2022 – June 2025

Final CGPA: 9.10

CERTIFICATIONS

- Meta Platforms (Coursera)** — HTML, CSS, responsive design fundamentals
- Internshala** — end-to-end web development including AI integration
- LinkedIn Learning** — core Python syntax, logic building & scripting

KEY ACHIEVEMENTS

- Achieved 9.10 CGPA in BCA, demonstrating strong academic performance.
- Built and deployed a full-stack AI web application integrating machine learning with a web interface.
- Maintained an active GitHub portfolio with version-controlled projects, demonstrating professional development habits from day one.
- Completed industry-recognized certifications in frontend, full-stack, and Python development..
