Contact No. 7875056528 | Location: Pune, Maharashtra

SUMMARY

Java backend developer with knowledge of Java, Spring Boot, REST APIs, MySQL, and Git. Experienced in building backend-focused projects with database integration and authentication features. Strong interest in scalable application development and continuous learning.

TECHNICAL SKILLS

- Languages: Java, SQL, C, CPP,
- Backend: Spring Boot, Hibernate, REST APIs
- Database: MySQL, PostgreSQL
- Tools: Git, Postman, IntelliJ IDEA, VS ode
- Concepts: OOP, Collections, JDBC, Multithreading, Exception handling
- Frontend Basics: HTML, CSS, JavaScript, React

PROJECTS

Task Management System

Tech Stack: Java, Spring Boot, Spring Security, JWT, Hibernate/JPA, MySQL, Swagger, Maven

- Developed a secure Task Management System with JWT-based authentication and role-based access control (ADMIN, MANAGER, MEMBER).
- Implemented workspace and task management features including task assignment, status tracking, and comment functionality.
- Built RESTful APIs using Spring Boot with layered architecture, DTO pattern, validation, and exception handling.
- Integrated Swagger/OpenAPI for API documentation and testing.
- Added email notification system using Brevo for user registration, workspace invitations, task assignments, and status updates.
- Used MySQL with Spring Data JPA/Hibernate for database operations and entity relationship management.

EDUCATION

Bachelor of Computer Application (BCA)

SSBT College of arts, commerce and science, Jalgaon, Maharashtra
CGPA:9.73

2024 – 2027

Class XII

Swami Vivekanand Jr. College, Jalgaon | Maharashtra Board |
Percentage: 69.5%

2021 - 2022

Class X

Abhinav Vidhyalaya, Jalgaon | Maharashtra Board |
Percentage: 92.6%

2009 - 2020
