

Yogesh Madhav Waghmare

+91 7769992833 — yogesh.waghmare.aids.2023@gmail.com — LinkedIn

Technical Skills

Languages & Databases: Python, C, C++, MySQL

Libraries & Tools: Pandas, NumPy, Scikit-learn, TensorFlow, OpenCV

Data & Visualization: Power BI, Matplotlib, Advanced Excel

Other Skills: Git, Machine Learning, Data Analysis, DBMS, DSA, Web Development

Projects

FindIt.AI – AI Integrated Lost and Found System with Facial Recognition

- Developed an AI-based facial recognition system for identifying missing persons using computer vision.
- Implemented EfficientNet-based CNN for facial feature extraction and Content-Based Image Retrieval (CBIR) for similarity matching.
- Achieved 78
- Used OpenCV for face detection and preprocessing, and TensorFlow/Keras for model training
- Integrated Google Cloud Database for scalable data storage and Twilio API for real-time alert notifications.

Emotion Detection using Arduino and Machine Learning

- Designed an emotion detection system using Arduino sensors.
- Processed physiological data such as heart rate and temperature for classification.
- Enabled real-time emotion recognition for mental health applications.

Credit Card Fraud Detection System

- Built a fraud detection system using Random Forest, XGBoost, Logistic Regression, and SVM.
- Achieved ROC-AUC greater than 0.95 through model optimization and ensemble techniques.

Awards & Achievements

- ELYSIUM College-Level Hackathon
- Participant – Smart India Hackathon, Elysium Tech Hackathon
- Solved 40+ DSA problems on leetcode

Education

Pursuing Vidya Pratishthan's Kamalnayan Bajaj Institute of Engineering Technology

B.E. in Artificial Intelligence and Data Science

MP Vidhayalay Ambulga

HSC – 71%
